

Re: Cuyahoga County  
Sherwin-Williams Company/Sprayon Products, Inc. waste

November 13, 1979

Mr. Gary Brotherton  
c/o BFI of Ohio, INC.  
8100 Old Granger Road  
Garfield Heights, Ohio 44125

Dear Mr. Brotherton:

Mr. Lynn Clark of this office requested that I write this letter. It regards the hauling of cans from Sprayon Products, Inc. to Inland Reclamation, Inc. for disposal.

It is our understanding that such cans are now to be punctured and drained of their contents prior to their being placed in your roll-off containers.

If this is the case, then disposal of such punctured and drained cans would be acceptable, by this office, at the Inland Reclamation, Inc. site. Acceptability would extend to most any other licensed landfill in this district.

It is hoped that this answers your question. If not, please contact me at any time.

Yours truly,

Jack L. Burgan, R.S.  
District Solid Waste Scientist  
Office of Land Pollution Control  
Northeast District Office
